Starting on July 1, 2022, your experiences with Ohio Medicaid’s managed care will change for the better! We’re introducing Ohio Medicaid’s next generation managed care plans to provide a more personalized approach to support your healthcare needs. Ohio Medicaid members will not lose healthcare coverage or benefits due to this change.

Our records show that you currently receive waiver services. **If you would like, you can choose to enroll in a next generation managed care plan listed in the table below now or any time in the future. Whether you choose to enroll in managed care or not, your waiver services will not change.** Your waiver services will continue to be coordinated as they currently are today.

Questions to consider when selecting a managed care plan:

A managed care plan is a private health care insurance company, which works with the Ohio Department of Medicaid, to coordinate your care, provide care management, and provide services to address your health care needs. Because health care is so important, choosing the plan that best fits your health care needs is also important. Here are some questions to consider when choosing your managed care plan:

- Which plan works with all or most of your doctors?
- Which plan works with the hospitals you want to use?
- Which plan offers the extra services you need, such as additional unemployment assistance, access to nutritious foods, education, wellness programs, vision, or dental services?
- Will you have to pay co-pays for dental services, routine eye exams, eyeglasses, mental health, substance use disorder (SUD) benefits, or non-emergency services provided in a hospital emergency department?

You may have other questions or concerns that are important to you. You can contact Ohio Medicaid's next generation managed care plans using the information provided in the "To change your managed care plan" section of this letter. They can help you learn more about the providers and extra services each plan offers. You can also use the Find a Provider tool at www.ohiomh.com to find out which providers each plan offers.

Next steps after enrollment:

After the next generation plans go live, your managed care plan will send you your member ID card and a member handbook. Your plan will also give you access to their health care provider directory. You will get health care from doctors and hospitals that work with your plan.

If your doctor does not work with your managed care plan, you can talk to your doctor about becoming part of the plan's network. If you have a medical appointment or a scheduled service and your health care provider does not work with your plan, call your managed care plan right away.
